"For Signature Projects"

TimberForm® & PipeLine® Designer ColorBook™

Lead-Free Polyester Powder Coating Colors "For Signature Projects"

CASPAX-7 is a richly colorful and durable lead-free polyester powder coating metal finishing system created to beautify and protect **TimberForm** and **PipeLine** metal components for playground equipment, landscape furniture and outdoor fitness equipment. This colorful metal finish is also available for **CycLoops**® and **CycLocker**® bicycle management products. Unlike liquid paints, CASPAX-7 renders the coated metal surfaces especially suitable for public use in outdoor settings.

To obtain a high level of durability requires careful preparation of the metal substrate. The process consists first of mechanical cleaning to remove heavy mill scale, varnish, rust, and dirt; then chemical cleaning to remove oily contaminants in accordance with TT-C-490C, Methods I and III.

Before electrostatic application of the colored powder, the metal substrate receives a corrosion-inhibiting iron phosphate coating in accordance with TT-C-490C, Type II. The CASPAX-7 powder is then applied by the electrostatic method to a thickness of six to eight mils and then oven cured at 400 degrees Fahrenheit (204° C). This curing process chemically bonds the finish to the substrate and renders the coated metal much more resistant to the effects of abrasion, impacts, temperature extremes, natural corrosives and U.V. degradation than any other available colored metal finish.

Each step in the finishing process is closely monitored by trained quality control personnel and detailed Quality Control records are maintained for future reference and reviewed for process improvement.

The exceptionally thick CASPAX-7 powder coating finish offers lasting performance far superior to conventional thin liquid finishes. The difference is most apparent when products are installed in an outdoor environment and exposed to public use.

Choose from this palette of designer colors or from the ten standard CASPAX-7 colors illustrated on our ColorCard™.

Makers of TimberForm & PipeLine Playground Equipment and Outdoor Fitness Systems, TimberForm Site Furniture and CycLoops® & CycLocker® Bicycle Management Products.
